

PRO-CHEX

Check positive pay has been reinvented!

PRO-CHEX removes barriers to customer adoption while radically **reducing cost for financial institutions!** FI's no longer have to rely on multiple vendors to provide check positive pay services.

PRO-CHEX end-to-end design allows financial institutions to **retire costly legacy backroom systems** and markedly improve operational efficiencies by being the first **SaaS solution** to:

- **Ingest capture and issuance data**
- **Identify exceptions, alert and present**
- **Accept customer pay/no pay decisions**
- **Create a disposition file and/or report**

PRO-CHEX data mapping wizard, **removes the daunting requirement on customers** to deliver issuance files to the financial institution in a specific format. They simply define the file type and the location of data elements and PRO-CHEX takes care of the rest. Customers can save mapping templates for future imports. **Single-sign-on with virtually every online banking provider**, assures customers easy access to PRO-CHEX, to take care of all their check positive pay needs.

Here's How It Works: Financial institutions setup Clients in **ACH Alert's Fraud Prevention HQ** platform and enroll accounts for check positive pay services. Customers key or import issuance data. FI's transmit capture information.

PRO-CHEX matches issuance and capture data to create the exceptions. **Exceptions trigger alerts to customers to make a pay/no pay decisions.** Images of checks can be presented to customers on demand. Payee positive pay is also available.

PRO-CHEX built in billing capability (ACH or analysis) **completely automates billing to customer accounts.** Application and message branding are supported. PRO-CHEX, a service module of **ACH Alert's Fraud Prevention HQ** platform can be used as a stand-alone or combined with **PRO-TECH, COPS and BIO-WIRE** to provide customers with **a unified experience to prevent fraud** across multiple payment channels.

To learn how ACH Alert can help your financial institution mitigate fraud, **improve operational efficiencies to reduce cost**, drive adoption to make your fee income soar, **contact us today** at 866-265-8961 or email us info@achalert.com **for a free consultation.**
